I am a passionate, self taught Front-end web developer, working to become a full stack software engineer. I've been learning since 2020 March & have found a place for my endless line of questions work to find the answer, solution to whatever problem needs fixing.

## Current employment

### **LICENSED COLLECTIONS SPECIALIST, IQ DATA(ARS) — OCT, 2018–PRESENT**

Call center based collections, file management system to manage accounts, resolve accounts & maintain a book of business assigned. Tasked with managing accounts & handling them per laws, regulations & guidelines to close each account based on the situation & documentation. Numbers are what really matters & tasked with tracking a quota to fulfill monthly, quarterly & annually.

## Education

I attended Edmonds Community College to major in Computer Science & game design. Projects I was part of & tasked with were video animations & character designs. 2D & 3D models ready for animation or for player usage. I was also tasked with storyboarding, there I learned VB, C# & Java.

## Languages I speak

HTML, CSS, JS, Python, SQL, PHP

## Frameworks & Libraries

Bootstrap, Tailwind, JQuery, React, AngularJS, PostgreSQL/MySQL/NoSQL.

In my free time outside of my full-time position, I take courses through Udemy, W3Schools, Brilliant, Codecademy, FreecodeCamp, The Odin Project & SoloLearn. I love designing websites, & with each project I learn something new, a new feature or function, & apply that to a pet project, then adapt it to other websites, programs to fully grasp what it does.

Related books I've read & continue to reference daily include Cracking the Coding Interview by Gayle Laakmann, CS distilled by Wladston Filho, HTML, CSS, JS, JQuery by Jon Duckett & Eloquent Javascript by Marijn Haverbeke.
